This unique blend of probiotics and nutrients is so powerful, it creates a cascade of healing within your mouth, as if each tooth has its own personal dentist.

Here's the truth.

The real key to healthy teeth and gums is a healthy oral microbiome.

In order to support the health of your teeth and gums, you need to repopulate your mouth with good bacteria and provide a healthy environment for the strains to grow in.

Restore your oral microbiome and you will make your teeth stronger and gums healthier.

It's like having billions of tiny tooth repair specialists protecting your mouth every second.

This newly developed, doctor-formulated Probiotic "Candy" targets the root cause of poor oral health by repopulating your mouth with good bacteria.

You'll feel a thrill every time you think about your improved oral health, and love flashing your Hollywood-star smile every chance you get.

The best part is that this probiotic candy also targets your respiratory system, supporting your body to stay free from allergies, while also promoting restful sleep and good digestion.

You'll wonder why dentists don't tell us about this.
